SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an

existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. Type of Information Collection Request: Extension of a currently approved collection; Title of Information Collection: Disclosure for the In-Office Ancillary Services Exception; Use: Physicians who provide certain imaging services (magnetic resonance imaging, computed tomography, and positron emission tomography) under the in-office ancillary services exception to the physician self-referral prohibition are required to create the disclosure notice as well as the list of other imaging suppliers to be provided to the patient. The patient can use the disclosure notice and list of suppliers in making an informed-decision about his or her course of care for the imaging service. The physician must maintain a record of the disclosure in the patient's medical record. If we were investigating the referrals of a physician providing advanced imaging services under the in-office ancillary services exception, we would review the written disclosure to determine whether the physician satisfied the requirement.
